Technology Strategy & Roadmapping

A sequenced technology direction the executive team can own, communicate and deliver.

Format
Fixed-scope review

Duration
Four to six weeks

Output
Written strategy and sequenced roadmap

Commercial basis
Fixed fee

Sound familiar?

- Technology decisions to make, and no shared view of the sequence.
- Investment cases compete, with no common frame to test them against.
- A strategy already exists, written by a vendor with something to sell, and nobody in the room fully believes it.

Everyone agrees something needs to happen, but not what, in what order, or why now.

How it runs

What happens first, why, and what depends on what.

- **Review.** The current estate, the commercial priorities and the real constraints: budget, skills, timeline.
- **Test.** Working sessions with the executive team, surfacing disagreement early.
- **Sequence.** What comes first, why, and what depends on what.
- **Hand over.** A strategy the executive team can present to the board in its own words.

What you keep

- A written strategy
- A prioritised roadmap
- Stress-tested business cases
- A common frame

What changes

Before		After
Decisions go to the loudest voice in the room.	→	**Decisions made against a shared view.**
Disagreement surfaces later, as delay.	→	**Assumptions tested and disagreement surfaced early.**
Dependencies buried in an appendix.	→	**A roadmap with dependencies made explicit.**
Business cases judged on the totals.	→	**Business cases tested for the trade-offs they contain.**
A plan that dies at the next budget cycle.	→	**One that survives it, because the constraints were built in.**

Done before

5-year IT strategy for a UK university, written and implemented.
Higher education

Approved at board level: organisation-wide strategies across data, integration, cloud and AI.
Telecoms

Policy from each government agency, turned into a five-year technology and investment strategy.
Home affairs and justice

One conversation.

No obligation. The right fit matters more than the right brochure.
